Summary

Senior AI Product Manager with 13+ years in regulated financial services across Credit Suisse, UBS, Standard Chartered, and Capgemini. Pairs deep credit risk, AML/CFT, and compliance domain expertise (Basel III/IV, ECB, EU AI Act, DORA, GDPR) with hands-on LLM, RAG, and multi-agent product delivery; built and shipped 7 AI products in the last 12 months. Owns product vision, roadmaps, P&L, and backlog governance, delivering complex, multi-stakeholder programmes through international agile teams of 50+ across Europe and Asia.

Experience

Senior AI Product Manager — AI Adoption & Governance, Capgemini | Apr 2023 – Present
Stuttgart, Germany

Led firm-wide AI adoption across 4 business units; identified \$600K+ annual savings and secured 500K incremental budget

- Launched AI enablement programme using LLM-powered multi-agent workflows (planner, reviewer, summariser); drove adoption across 4 business units and shaped the phased AI adoption roadmap that became the organisational standard
- Defined firm-wide AI product roadmap, embedding EU AI Act compliance gates, risk governance milestones, and GDPR/data protection reviews with legal and data governance across all LLM adoption phases
- Prioritised 12+ high-impact AI use cases with delivery leads and risk teams; achieved 85% stakeholder alignment in the first sprint cycle and a 3x increase in AI pilot proposals within 3 months
- Built a lightweight AI evaluation framework using context engineering; improved LLM answer consistency 25%, cut hallucination rate 40%, and reduced model failure rate 30%
- Owned 200+ item backlog using RICE prioritisation and OKR-linked acceptance criteria; reduced feature time-to-market 25% and accelerated releases from bi-weekly to weekly through shift-left testing, BDD, and CI/CD governance
- Secured 500K in additional product investment by presenting risk-adjusted ROI analysis directly to executive leadership; identified GenAI use cases for a financial services client projecting 20% annual savings in credit analytics and compliance

Senior Product Manager — Credit Risk Platform, Standard Chartered Bank | Mar 2022 – Mar 2023
Warsaw, Poland

Owned Credit Risk Analytics Platform serving 50+ stakeholders; reduced audit risk exposure 40% with integrated governance

- Owned product vision and roadmap for Credit Risk Analytics Platform across Risk, Finance, and Compliance; architected Basel III stress-testing and ECB FINREP reporting workflows, cutting the forecast cycle from 5 days to 8 hours
- Prioritised 150+ credit risk features using RICE; translated regulatory risk control requirements into product specifications and acceptance criteria with 100% feature traceability from story through release
- Introduced shift-left testing, BDD standards, and 50+ automated validation checks across 3 teams; cut calculation errors 85%, audit findings 60%, and defect escape rate 40%
- Led cross-functional delivery across 4 time zones (Warsaw, London, Mumbai, Singapore); served as escalation point for CRO/CFO on regulatory deadlines and capital planning

Product Manager — AML Risk Platform, UBS | Wroclaw, Poland Dec 2020 – Feb 2022

Owned NICE Actimize AML triage system; reduced false positive rate from 45% to 22%, saving 2,000+ analyst hours annually

- Owned product vision, roadmap, and backlog for AML alert triage system; defined epics, user stories, and acceptance criteria for 3 agile teams across USA, Germany, and Poland
- Redesigned risk-scoring and alert prioritisation logic; reduced false positives from 45% to 22% and improved suspicious activity detection 30% — direct compliance KPI outcome

- Facilitated PI planning and dependency resolution across 3 time zones; improved sprint throughput 25% and cut cycle time from 4 weeks to 2.5 weeks
- Delivered 4 major releases on time with audit-ready release notes, escalation logs, and governance documentation; 95% stakeholder satisfaction

Senior Product Owner — Loan Stress Testing & Capital Risk, Credit Suisse | Jul 2018 – Nov 2020
Wroclaw, Poland

Owned credit risk platform roadmap supporting Basel III capital calculation and ECB stress testing; 30% faster release cycles

- Owned product roadmap for Loan Stress Testing platform covering Basel III capital calculation, ECB scenario modelling, and P&L forecasting across the EMEA credit portfolio
- Redesigned the stress testing user experience and created a UX index predicting optimal update timing; reduced P&L forecasting errors 20%
- Translated stress testing requirements (Basel III/IV, IFRS 9) into user stories and acceptance criteria for quant, engineering, and risk teams; 95% first-review sign-off rate
- Managed backlog and PI planning for 2 scrum teams, delivering 30+ features over 4 PIs with 90% on-time delivery against regulatory reporting cycles; improved sprint velocity 22%

Product Owner — Post-Trade Settlement, Credit Suisse | London, UK May 2017 – Jun 2018

Owned \$400K P&L and EMEA/US/APAC settlement roadmap; reduced settlement failures 25% through CI/CD automation

- Owned product roadmap and \$400K P&L for multi-region securities settlement platform; translated risk requirements into 50+ epics and user stories, eliminating 12 legacy components
- Led 23-member offshore team across equity, stock borrow/loan, clearing, and asset servicing; achieved 97% SLA adherence and 35% reduction in defect leakage
- Reduced settlement failures 25% and regression testing time 60% through CI/CD automation, improving release confidence across counterparty obligations

Associate Product Manager, Wipro Technologies | Pune, India Jan 2013 – Apr 2017

Delivery lead across top 5 global banks; 99.2% test coverage, zero production-critical defects for 8 consecutive releases

- Built internal automation tool “Kandoo”, cutting end-to-end trade testing time 50% and saving \$205K annually; adopted by 40+ PMs, POs, and QA staff

AI Product Portfolio

BankFlow AI — Agentic Banking Platform | Live Demo | GitHub Jun 2026

Multi-agent orchestration · LLM-as-judge evaluation · Guardrails

- Multi-agent orchestration with 8 tools, 3-layer guardrail pipeline, and LLM-as-judge evaluation suite (10 golden test cases, 4-dimension scoring)
- EU AI Act, AML, and DORA compliance built into agent reasoning, tool use, and audit trail

ComplianceIQ — AML Alert Triage System | Live Demo | GitHub Mar 2026

React · TypeScript · Tailwind · Vercel

- AI risk scoring across 6 alert categories (Sanctions, KYC, PEP, Structuring, Unusual Activity, Suspicious Transaction) with confidence scores, plain-language reasoning, human-in-the-loop guardrails, and EU AI Act Article 13 compliance
- Reduced simulated false positive rate from 45% to 22% and average resolution time from 8.4h to 4.2h, saving 2,100 analyst hours annually

RegCopilot — EU Regulatory RAG Copilot | Live Demo | GitHub Feb 2026

Claude API · Supabase (pgvector) · React · TypeScript · Vercel

- RAG pipeline ingesting EU AI Act, DORA, AMLD6, and GDPR (33,536 chunks, 384-dim embeddings); 82% accuracy on golden test set with zero cross-regulation hallucinations
- Citation-grounded answers, immutable audit trail, confidence scoring, and human review flagging — designed to compliance-grade standards

PulseAI — Multi-Agent Product Intelligence Pipeline | Live Demo | GitHub Apr 2026

Claude API · HuggingFace · n8n · Supabase · React · Vercel

- 4-agent pipeline (Feedback Harvester → Signal Analyst → Priority Engine → PRD Writer) with HuggingFace NLP (DistilBERT, BART) for sentiment and theme classification across 5 feedback sources

- Generates RICE-scored PRDs with user stories and acceptance criteria via Claude API; reduces manual feedback analysis by ~80%

PayGuard AI — Real-Time Payments Fraud Detection | Live Demo Jun 2026
Real-time scoring · Explainable AI · Human-in-the-loop

- Real-time fraud scoring with AI-generated explanations, analyst review queue, and EU AI Act compliance scoring (87/100)

OnboardIQ — Explainable KYC Onboarding Triage | Live Demo Jun 2026
Risk triage · Explainable agent reasoning · KYC

- AI-driven risk triage routing applicants to auto-approve, fast-track, or manual review, with full decision traceability and explainable agent reasoning

PayClear AI — Zero-Trust Payment Integrity Engine | GitHub Jun 2026
Payment integrity · IBAN verification · Trust scoring

- Pre-execution invoice interception, IBAN verification, and visual spoofing detection with composite Trust Index scoring before capital moves
