SUMMARY

Senior AI Product Manager with 13+ years in regulated financial services across Credit Suisse, UBS, Standard Chartered and Capgemini. Combines deep credit risk, AML/CFT and compliance expertise (Basel III/IV, ECB, EU AI Act, DORA, GDPR) with hands-on LLM, RAG and multi-agent product delivery – 7 AI products built and shipped in the last 12 months. Owns product vision, roadmap, P&L and backlog governance for international agile teams of 50+ across Europe and Asia.

EXPERIENCE

Senior AI Product Manager – AI Adoption & Governance

Apr 2023 – Present

Capgemini | Stuttgart, Germany

Led firm-wide AI adoption across 4 business units; \$600K+ annual savings identified

- Launched an AI enablement programme using LLM-powered multi-agent workflows (planner, reviewer, summariser); the phased AI adoption roadmap became the organisational standard across 4 business units.
- Defined the AI product roadmap with EU AI Act compliance gates, risk governance milestones and GDPR reviews embedded in every release.
- Prioritised 12+ AI use cases with delivery and risk leads: 85% stakeholder alignment in the first sprint and a 3x increase in AI pilot proposals within 3 months.
- Built an AI evaluation framework with context engineering: +25% answer consistency, -40% hallucinations, -30% failures.
- Owned a 200+ item backlog (RICE, OKR-linked acceptance criteria); cut time-to-market 25% and moved releases from bi-weekly to weekly. Secured 500K additional investment through risk-adjusted ROI cases to executive leadership.

Senior Product Manager – Credit Risk Platform

Mar 2022 – Mar 2023

Standard Chartered Bank | Warsaw, Poland

Credit Risk Analytics Platform for 50+ stakeholders; audit risk exposure reduced 40%

- Owned vision and roadmap across Risk, Finance and Compliance; architected Basel III stress-testing and ECB FINREP reporting workflows, cutting the forecast cycle from 5 days to 8 hours.
- Prioritised 150+ credit risk features (RICE) with 100% traceability from regulatory requirement to release.
- Introduced shift-left testing, BDD and 50+ automated checks: -85% calculation errors, -60% audit findings.
- Led delivery across 4 time zones; escalation point for CRO/CFO on regulatory deadlines and capital planning.

Product Manager – AML Risk Platform

Dec 2020 – Feb 2022

UBS | Wroclaw, Poland

NICE Actimize AML triage; false positives cut from 45% to 22%, saving 2,000+ analyst hours a year

- Owned vision, roadmap and backlog for the AML alert triage system across 3 agile teams in the USA, Germany and Poland.
- Redesigned risk-scoring and alert prioritisation logic, improving suspicious-activity detection by 30%.
- Ran PI planning across 3 time zones: +25% sprint throughput, cycle time cut from 4 to 2.5 weeks.
- Delivered 4 major releases on time with audit-ready documentation; 95% stakeholder satisfaction.

Senior Product Owner – Loan Stress Testing & Capital Risk

Jul 2018 – Nov 2020

Credit Suisse | Wroclaw, Poland

Basel III capital calculation and ECB stress testing platform; 30% faster release cycles

- Owned the roadmap for Basel III capital calculation, ECB scenario modelling and P&L forecasting across the EMEA credit portfolio.
- Translated Basel III/IV and IFRS 9 requirements into user stories for quant, engineering and risk teams; 95% first-review sign-off.
- Created a UX index predicting optimal update timing, reducing P&L forecasting errors 20%.
- Delivered 30+ features over 4 PIs across 2 scrum teams with 90% on-time delivery; sprint velocity +22%.

Product Owner — Post-Trade Settlement

Credit Suisse | London, UK

Owned \$400K P&L for EMEA/US/APAC settlement automation

- Translated risk requirements into 50+ epics and user stories, retiring 12 legacy components.
- Led a 23-member offshore team across equity, stock borrow/loan, clearing and asset servicing; 97% SLA met.
- Introduced CI/CD automation: -25% settlement failures, -60% regression testing time, -35% defect leakage.

May 2017 – Jun 2018

Associate Product Manager

Wipro Technologies | Pune, India

Delivery for top 5 global banks; zero production-critical defects over 8 consecutive releases

- Built the internal automation tool “Kandoo”, adopted by 40+ PMs, POs and QA staff: -50% trade testing time, \$205K saved annually.
- Coordinated front-to-back settlement testing across 6 agile teams with 99.2% test coverage.

Jan 2013 – Apr 2017
